

DESIGN YOUR OWN CASHFLOW SC SERIES

Step 1: Choose your cashbox capacity

- SC—600 notes
- SCM—900 notes
- SCL—1200 notes
- SCXL—2200 notes

Step 2: Choose your acceptor width:

- 66mm
- 83mm
- 85mm

Step 3: Choose your bezel

- Bunch Note Feeder (BNF)
- Universal
- Coin resistant
- Other

Step 4: Choose your interface:

- RS232 Serial
- USB

TECHNICAL SPECIFICATIONS

ACCEPTANCE RATE

- 98% or greater¹

NOTE/BAR CODE COUPON INSERTION

- Notes - up to 48 notes, four ways, faceup and down
- Note dimensions -
62mm - 83mm width
120mm - 166mm length (standard cashbox)
120mm - 177mm length (extended cashbox)

TRANSACTION SPEED

- Approximately three seconds to stack

ESCROW

- One note

INTERFACES

- Multiple serial protocols - USB

SC SERIES CASHBOX CAPACITY

- 500 - 900 - 1200 - 2200

POWER SOURCE & CONSUMPTION

- 12V - 28VDC
- Standby: 10 Watts
- Accepting: 30 Watts
- Stacking: 70 Watts

SHIPPING WEIGHT²

- SC Series 4kg (9 lbs.)
- SC Cashbox 1.5kg (3 lbs.)

ENVIRONMENTAL

- Operating Temperature 0°C - 60°C
- Storage Temperature -30°C - 70°C
- Humidity 5% - 95%³

RAISING BILL VALIDATOR PERFORMANCE EXPECTATIONS

MEI knows bill validators. Since developing the electronic, non-contact bill acceptor, MEI has created several families of highly engineered electronic payments systems that are currently relied upon for more than two billion transactions per week in over 100 countries.

Perhaps no other MEI product so ideally serves customer needs as well as the MEI CASHFLOW® SC Series. Safe & kiosk machine performance has been redefined by increases offered by MEI CASHFLOW® SC in acceptance rate, jam rate and security.

The MEI CASHFLOW SC Series is designed to meet the demanding needs of Retail Cash Management whether in safes, cash deposit systems, gas pumps, security applications, self checkouts or kiosks. The difference is apparent in the bottom line. Retailers benefit from lower maintenance costs and increased productivity.

Proven performance. Increased profits. The product features, and resulting benefits, have evolved from decades of MEI's experience to redefine the role and perception of bill validators within the Retail industry - rewarding an investment in MEI CASHFLOW® SC with unparalleled returns.

Please contact your MEI sales associate to schedule a Value-added Trial (VAT) or learn how MEI CASHFLOW® SC can help increase the bottom line in your operation.

Proven performance. Increased profits.

MEI CASHFLOW® SC sets the standard for bill validators worldwide.
The knowledge gained from producing over three million note acceptors has created:

Advanced acceptance and security

A series of features contributing to a higher overall acceptance rate for legal notes while increasing security against fraud.

- Unrivaled security against fraudulent notes due to a full scan "light bar" source that provides six wavelengths of light.
- Increased security through technology that scans more note surface.
- Advanced recognition algorithms that facilitate higher acceptance rates.
- Faster resolution to disputes with a window revealing the value of the last note stacked in the cashbox.

Exceptional note handling

Virtually eliminating early rejects by attempting to accept all notes at first pass.

- Improved acceptance via a wheeled design that allows note insertion from any angle.
- Enhanced protection against fluid and dust from a sealed, shortened note path—significantly decreasing the risk of jams.
- Best acceptance of street quality banknotes.

Lower cost of ownership

Combining functionality and durability in a design that withstands the toughest conditions.

- Extremely durable cashbox constructed of Verton plastic.
- Protected internal mechanisms and drive gears insulates components from the operating environment.
- Heavier gauge steel in chassis allows flexibility in mounting options.
- Easily updated through interface cards.
- Fewer moving parts reduce required maintenance and associated inventory.

Superior ease of use

Reducing the time and cost, and associated downtime, previously associated with bill validator maintenance.

- Easy access to the acceptor head.
- At-machine diagnostics with color-coded LEDs.
- Access to a USB port on the acceptor head provides interface to support tools.
- One-hand, ergonomic cashbox.
- Hot swappable architecture allows components to be interchanged.

Additionally, product enhancements can add functionality to MEI CASHFLOW® SC resulting in a tailored a solution for your individual needs:

CASHFLOW® BNF

automatically deposits up to 30 notes, resulting in faster processing and freeing up employee time to provide customer service.

CASHFLOW® Cassette Bag

stack money deposited into bill acceptor in a tamper-evident bag. The bag expands to the amount of notes inserted, providing a lighter and less bulky solution than a cassette.

CASHFLOW® STS

a Portable Programming Module (PPM) makes downloading upgrades simple and fast. The PPM allows flash via USB connectivity.

FEATURES

Custom bar code reader*

Full scan light bar

Beltless roller drive

Smooth, sealed short note path

Diagnostic LEDs/Configuration button/USB located on front face for easy access

Note path release

Easy access acceptor release latch

Conveniently located interface card easily changed

Recessed plastic gears

Dispute resolution window

Durable welded plastic exterior withstands rigorous daily use

Lockable removable cashbox with dual lock capability

FOUR CASHBOX SIZE OPTIONS:

SC
600 notes

SCM
900 notes

SCL
1200 notes

SCXL
2200 notes

BENEFITS

Proven Quality Over one million units sold

Global Notesets Nearly 100 countries are maintained by a full-time currency team

Revenue Highest banknote acceptance 98%+

Up Time Rarely jams as bank note is always controlled

*On some models.
